

MATTHEW P. CUBBAGE
SURGERY INFORMATION

If you are in the process of being scheduled for surgery with Dr. Matthew P. Cubbage, here are some pre-scheduling instructions to follow:

If you have a certain time that is best for you, please let us know as soon as possible and we will try and accommodate you within that time frame. However, depending on where the doctor is on that day will also have a factor where your surgery will be placed. If your surgery has not been scheduled at the time of your visit, I will contact you as soon as possible with your appointment date, time and location.

Once you receive this information regarding your surgery and where it will be scheduled, then call the specified facility provided below and schedule your pre-op appointment. This is a health screening before your surgery to make sure that you are able to have surgery.

- North Cypress Medical Center (832) 912-3992
- Methodist Willowbrook Hospital (281) 477-1900
- Tomball Regional Hospital (281) 401-7893

**** Please be aware if you have had past medical history (cardiac, pulmonary) you might need a surgical clearance from your Cardiologist or your Primary Care Physician. If you do, please go ahead and notify your doctor and obtain a surgical clearance. If you are not sure, when you go for your pre-op appointment the nurse will inform you if one is needed.**

Please remember: **DO NOT EAT OR DRINK** anything after midnight the night before surgery, unless otherwise instructed by the surgical facility. The arrival time for surgery will be given at the time of pre-op and you must go by that time. If you have been taking any of the medications on the list that is attached, please inform the nurse.

In this packet, it will inform you of certain procedures that are to be done in order for your surgery to take place successfully and I do hope I can make this be a pleasant experience for you. Please read it carefully and completely. If you should have any pre or post-operative questions, please give me a call.
